In Re: Georgia Greenspace Program.

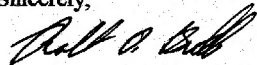

Dear Sir:

The Town of Brooks will not individually participate in the Georgia Greenspace Program. The reasons our non-participation are the small amount of funds the town is eligible to received based on its percentage of total county population and that the town does not have a staff to administer the program. The Town of Brooks will cooperate with Fayette Counties' administration of the greenspace program within the Town of Brooks as indicated on the future greenspace map in the Fayette County Greenspace Program.

If further information is needed please contact me at 770-719-8574, Fax 770-719-4343.

Thank you!

Sincerely,

Robert P. Butler

Mayor

To Whom It May Concern,

The Town of Woolsey will not individually participate in the Georgia Greenspace Program. The reasons for our non-participation are based on the small amount of funds the town is eligible for in regards to its percentage of total county population and that town does not have a full-time staff to administer the program. The town of Woolsey will cooperate with Fayette County in the administration of its greenspace program in those areas within the Town of Woolsey that are indicated on the future greenspace map in the Fayette County Greenspace Program.

Sincerely,

Gary Laggis
Mayor
